

Growth Assessment Protocol

Thursday 22nd May 2014
Beardmore Hotel, Glasgow

This workshop is based on the training programme which has led to reductions in stillbirth rates in three NHS Regions. It will be run by a team from the Perinatal Institute, including Sally Giddings and Sally Buller (supervisor & specialist midwives) and Professor Jason Gardosi.

The workshop is designed for the GAP leads (obstetrics, midwifery, ultrasound) and will be able to accommodate up to 6 delegates from each Health Board.

9:30 Coffee / Tea, Registration

10:00 Session 1

- **Introduction / Background** – perinatal mortality and the significance of IUGR
- **Fetal growth surveillance** – latest evidence; RCOG guidelines
- **Fundal height** - standardised measurement and plotting
- **Referral protocols** - & indications for further investigation - ultrasound, Doppler
- **Clinical application** - generating customised growth charts; case studies
- **Documentation and record keeping** - plotting and referral scenarios

12:15 Lunch

13:00 Session 2

- **‘Train the trainer’** – implementation of training programme locally
- **Protocol template** – evidence based content and local adaptation
- **Routine data collection** – dataset, rationale, definitions, reporting
- **Missed cases audit tool** – implementation, identifying hurdles / system failures
- **Competency document** – to demonstrate skill-set in protocols, use of charts etc
- **E learning package** – to assist with update training

15:15 Close

Venue: Beardmore Hotel, Beardmore St, Clydebank G81 4SA Tel 0141 951 6000
